Functions

Start:
Here you can start the automatic update. For this purpose the device has to be connected to your PC by a corresponding USB cable. Furthermore the PC needs an access to the internet. The connected device is automatically searched and the type is detected. Then the update which is automatically downloaded from the Metz mecatech homepage will be installed in your device. If the update is completed successfully a message will be displayed. Confirm with OK.

Help:
Opens this display with the help text.
